AGENDA ITEMS

1. **Welcome - 1:02pm**

2. **Review and approve previous [meeting minutes](#)**
   a. Approved

3. **National Trends in Higher Education:** Discussion and reflection on [national trends](#) in higher education and implications for planning in Academic Affairs. Please begin to generate thoughts in this [google doc](#) before the meeting if possible.
   a. Please see [google doc](#) for contributions

4. **Envisioning the Educational Vision Plan:**
   a. What does the plan look like?
      i. Incorporate the "distance ed plan" into ed vision plan
         - Different modalities have benefitted areas like ECE in particular. They are in need of flexible options.
         - We have connected with other schools since the pandemic and it has allowed our students more options to take classes and benefit from local networking
         - Distance Ed is no longer its own category
      ii. Incorporating Curriculum and scheduling practices in program review.

- This would fit in to the next program review cycle by modeling parts of this plan into the more granular parts of program review
- The timeline for program review should align with the strategic plan

b. should be incorporated into this plan in some way. How is it being used? By whom? When? Where?

c. What should each division consider (e.g., priorities, strategies)?

d. How will the EVP feed into the facilities, technology, etc. plans?

    i. It should inform the other plans to support instructional goals.

    ii. Technology: Software support, technology support in the evening hours

    iii. Classroom infrastructure

- EX. if a department needs an alternative modality, we will need technology and resources to support that

    iv. Strategic Enrollment Management Practices

- Productivity

A comment was made that there isn't food on campus at night and the hydration stations do not work, this needs to be addressed. The library is trying to improve this aspect of campus (food).
